The Mambo sofa has inspired a bed

Lorenza Bozzoli's Mambo sofa debuted in 1961 and now Ghidini1961 has extended it to a bed.

The new bed takes the shape of its namesake, a celebration of the fluid movement and expressiveness of

the Caribbean dance, and is a bed that elegantly defines the space that surrounds it, evoking the graceful and lively movements of mambo dancers. Its form is a dance that invites you to relax and let yourself

be lulled by its comfort.

The colour of the chosen velvet recalls the energy and fertility of the region and the generous curls of the Creole dancers' costumes.
