

Designed to adapt to linear compositions and angular solutions, or with chaise longues, Craig by **Cattelani** Italia develops in a rounded configuration - the curved element is an even more embracing feature and makes it possible to distance the chair from the walls, positioning the sofa in the centre of the space

Unconventional carpets - the new UltraNative "Imago" Capsule Collection by **G.T.DESIGN** is inspired by four natural elements. Made in 100% ecomyl - the new sustainable and high-performance yarn - it blends primordial patterns and chromatic accents

Established & Sons draws on Carlo Nason's 1960s archives, presenting the Medusa lamp collection with glass sculptures recalling sinuous shapes. Light becomes warm and soft, accentuating the lamps' sculptural presence

Yin&Yang is a coffee table by **HIRO Design** that's now the star of a premium luxury capsule collection. Originally in pastel tones, it now appears in a striking satin-finish gold or black. Every piece is satinised and then polished by hand

"Sequenze opere tessili numerate" is a fibre art collection by textile designer **Ilary Bottini**, with textile pieces where the codes of life itself become design. The artist redesigns the DNA helices, transforming them into works of art with a Scandinavian feel.

The new, sculptural **Flexor** sideboards are designed by Robert Stadler for the living and dining areas. Their unusual feature is the extruded aluminium structure, which enables extreme modularity and great compositional freedom

Inspired by the dictates of sartorial fashion, the **DRESS_CODE** pieces designed by **gumdesign** for **S-CAB** in 2022 are intended to enhance the experience of both indoor and outdoor spaces. Notable among the new outdoor fabrics is the new striped proposal, recalling maritime traditions
