## ood fortune

Dutch designer Richard Hutten is renowned for his ironic, experimental approach, and Lucky, his cast brass coat hook for Ghidini 1961, £280, is characteristically playful. A delicate four-leaf clover seemingly floating on the wall, it is practical yet whimsical. Available in Polished Brass, Burnished Brass and Rose Gold finishes, it's as effective as a decorative object as it is a place to hang your coat.

### TABLE TALK

Designed by Marco Pucci and Claudio Dondoli of architectural studio Pucci & Dondoli, the Talos table for Bontempi commands a room through its sheer presence. Its defining feature is a monolithic elliptical base – two symmetrical shells that embrace the central body – available in configurations spanning metal, stone and combinations of metal and wood, where the warmth of natural materials meets the precision of metallic finishes. Price on request.
